Brand Leikance

About this item

- It is made of environmentally friendly PVC material, with high hardness, strong toughness, non-toxic, non-odor and reusable.
- The dense drainage holes at the bottom can reduce root oversaturation and facilitate rapid plant growth.
- The set includes 2 seed starter discs, ideal for starting the garden or transferring seedlings to larger flower pots.
- The unique sink design allows the water to reach the bottom and can be quickly absorbed by the roots of the plant.
- Suitable for starting flowers, herbs, vegetable seeds, fruits, seedlings, micro-green plants, wheat grass, etc.
